

Dear Children:

Before you read my book, **WHY EVERGREEN TREES ARE GREEN ALL YEAR** , or hear it read aloud, take a good look at the picture on the cover.

What do you think Pine Tree is looking at? What do you think Little Bird is doing? A pine tree is a kind of evergreen tree. Make up a story to explain why evergreen trees are green all year. Your teacher can write down your ideas, type them up, and send them to me at info@storypearls.com with "Why Evergreen Trees Are Green All Year" in the subject line.

After you make up your own stories, read or listen to my book, **WHY EVERGREEN TREES ARE GREEN ALL YEAR**.

I look forward to hearing from you!

Keep Reading,

Sydelle Pearl
